TRACK TOPICS.

[illegible] Judge Gaynor decides at once Public-school Public question. [illegible]

There was fast racing, a large crowd to attend it, and a general slaughtering of the favorites in the various events at Washington Park yesterday, and the sport was of such a character as to please the people who turned seven miles from the city to witness it. Another feature of the occasion was the excellent good time displayed by the thirteen horses that started, and the manner in which they captured the two principal races of the day, running fast, second, and third in the running dash with Joe Daughton, Ed Beers, and Tralia, and then crossing the wire [illegible] Sterling with Sparks, showed that the superiors of the sons and Alden Creek Jr. Favorite Rose have not lost many opportunities by their absence. The mile and a quarter in 2:07½ for the Judgment was a wonderfully creditable piece of work for the old horse, especially when the fact that he was the top weight with 10 ounces on his back is considered. Rose, who started out to make the pace for Joe Daughton, was so good an animal as ever have been entered for the race, she being a race mare of speed, and yet Daughton was not a dispatch to the two half-mile, and when Frank and Ed Beers were on the bridle there [illegible] of racing ever of Beers, and scraped home the winner of Sterling.

Sparks's victory in the Consolation Handicap was somewhat unexpected by the track as well as the public, but his bearing at the others was hardly made of a sensation than the prior appeal of anything the racing have displayed for the fifteen. Rose was a favorite [illegible] with the Sunnyside Derby and many [illegible] Tommy to the Five Colors and Count Sigard Derby were entered to be run this afternoon, and [illegible] Count to [illegible] Sparks, while a [illegible] to [illegible] Rose, after which the Sunnyside Derby will be run, and the two [illegible] to [illegible] Sparks,

...Appropriation Papers Ready to Have Illegal Pensions Removed from Public Law.

...Threat to the Steamship Companies Not to Carry the Mails Unless Appointed.

...Effect of the New Tariff Relations—Treasury Replenishing—The Army and Navy.

WASHINGTON, D. C., June 26.—(Special.)—Congressman Payson was in the Interior Department today. He had a conference with Secretary Lamar in the forenoon, and then went to the White House to see the President. Secretary Lamar informed Mr. Payson that he would have to leave the matter to the Commissioner of Pensions, and that the Commissioner would be instructed to have the papers in the cases of Payson's constituents who had been dropped from the pension rolls by the recent decisions sent back to the Department for re-examination. Payson...

...The Commissioner of Pensions has received a letter from Mr. Payson, in which the latter requests that the papers in the cases of his constituents who have been dropped from the pension rolls be returned to him. The letter will be referred to the Commissioner of Pensions, and the request complied with.

...Secretary Whitney has received the following letter, dated July 1, 1885:

...Navy Department, Washington, D. C.:

...Sir: Please advise by telegraph the company, agents, consignees or owners of the steamer ... of which you are the ..., whether they intend to carry the mails of the United States from this port, and if so, whether they will be required to do so under the contract with the Postmaster-General, or under the appointment of the Secretary of the Navy.

...Very respectfully,

...

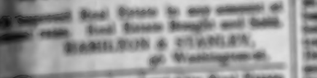
MONETARY.

Change in the principal cities of the United States yesterday and a week ago were:



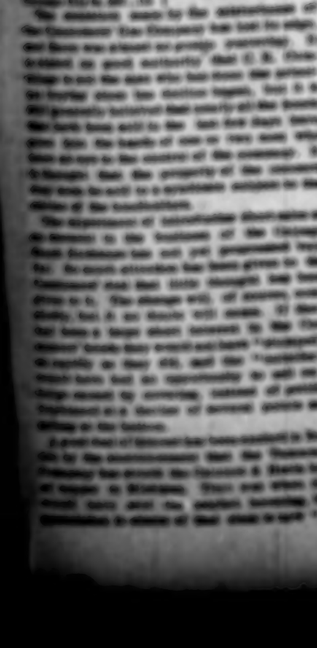
New York exchange was current on future transfer:

Chicago, 25c premium.
St. Louis, 50c premium.
New Orleans, $1 discount.

There was more activity on the London gold market yesterday, and the price was advanced 1d per ounce, making it 77s 10½d. The bulk of the transactions continue to be in American gold coin. The greater scarcity of coin has produced a corresponding scarcity of bullion for export. There was enough money to go around. Funds are to be had in abundance on call at 1 per cent. There are, however, some banks that will not lend at that rate. There was very heavy shipment of Eastern bills yesterday, and the price declined from the previous day's closing, as the latter figure. Foreign exchange was quiet, without alteration in the prices, which are as follows:

The demand for investment securities, which is always expected at the close of the year to take up the July interest and dividends, has already made its appearance. Some specialties have advanced a good deal in the last few weeks, because of their use paying well as compared with other investments, and the purchase there of greater power. There were no sales of the bonds of the Commercial Cable Company on the Chicago Stock Exchange yesterday. Sales were made of $1,000 Union Pacific Sinking-fund 6s of 1893, $1,000 Board of Trade 6s of 1915, and $1,000 St. Paul Chicago first 6s of 1918, among the transactions were the following:

The following were the closing prices at the Stock Exchange except where a bigger (†) for dealer that the price was asked without a bid:



The statistics made by the superintendent of the Commercial Cable Company has been in order, and have been issued in pretty generally. It appears on good authority that C. B. Cole, Wage is not the man who has been the principal owner of the Commercial Cable Company, but it is generally believed that nearly all the bonds and stock have been sold by the Cole family, and that the bulk of one or two banks, who have been the owners of the company. It is thought that the property of the concern may soon be sold to a syndicate outside of the control of the stockholders.

The appointment of Lieutenant Commander Wainwright to the Institute of the Chicago Stock Exchange has not yet progressed very far. No such attention has been given to the Commercial and that little thought has been given to it. The change will, of course, make little, but it no doubt will result in there not being a large short interest in the Chicago Stock Exchange one month and have "corners" which have had an opportunity to sell on a large amount by covering instead of getting frightened at a decline of several points and selling on the bulls.

A good deal of interest has been excited in Boston by the announcement that the Concord Railway has struck the Calumet & Hecla lode at depth of 2,000 feet. This vein which has made many men the richest holding in the Calumet & Hecla mine. Most of the copper stocks that sold in the country in Boston are copper or mining stocks. They probably the Calumet & Hecla, which has been the most valuable stock that has been dealt in on the Boston Stock Exchange. The price of Calumet & Hecla once before reached $1,000 per share, with the Calumet & Hecla mine, which is the richest copper mine in the world, and which has been paying dividends of $1,000 per share every month for a long time. A fractional dividend of the same figure, $1,000 per share, was declared on the 1st of July. Western shipments were also sought for at 1½ per cent, while others there were held at close of 1 per cent, a year ago, and nobody would have believed at that time that present quotations would be reached.

NEW YORK.

New York, June 30.—[Special.]—The Bankers' Gazette says: Today's stock market was characterized by the heavy sales of Delaware & Lackawanna, Western Union and Pacific, which were very active. The interest in the rest of the list was small. The feature was the large sales of Delaware & Lackawanna, which sold up to 140, the highest point ever reached. The stock was bought for a short account, the principal buyer being a large holder of the low-priced stocks, and the movement was supposed to be in the interest of the Pennsylvania and Lackawanna and Western. During the early part of the day the market was strong, but the latter prominence was the feature. Money was easy at 1 per cent, and the supply was large. Sterling exchange was steady, with actual business in bankers' bills at $4.86 for sixty days and $4.87½ for demand. Posted rates were $4.86½ and $4.87½. Commercial bills were $4.85½@$4.86. Government bonds were dull but steady. State bonds were inactive. Railroad bonds were dull and heavy. The following were the closing prices:

The following is a complete record of bank transactions at the New York Stock Exchange yesterday:

The following are the stocks dealt in at the New York Stock Exchange, with amounts of sales during the day:
